Polio Cases In

U. S. Total 4,895

NEW YORK, July 23—(UP)—The National Foundation for Infantile Paralysis reported that the national polio rate is 35 percent ahead of a year ago.

The Foundation said 1498 was the worst polio year on record, with 27,856 cases.

A total of 4,895 cases have been reported through July 16 this year, the Foundation said.

On that date last year, there had been 3,601 cases.

For the week of July 16 to 16, 1946 cases were reported as compared with 716 for corresponding week in 1948.

Oklahoma, the Foundation reported, was the hardest hit of the 48 states. There were 59 cases in Oklahoma at this time last year. Now there are 354.

However, polio was on the rise in only 36 states. In North Carolina it had gone down from 646 cases at this time last year to only 68 cases thus far in 1949.

IN THE  
GOOD OLD  
DAYS

HIGH PRICED FEED—"Feed of all kinds for stock is held at enormous high prices in the vicinity of Greencastle. We heard last week of corn being sold at 60 cents per bushel at the crib, and hay, oats and straw in proportion. We wish our farmer friends no bad luck, but we do hope they will exercise a little charity and mercy towards us poor fellows about town, who have no feed for a cow or horse, which many of us are compelled to keep." (1858)

BATHING TIPS—"Once a week is often enough for a decent white man to wash himself all over; and whether in summer or winter that ought to be done with soap, warm water, and a hog's hair brush, in a room showing at least seventy degrees Fahrenheit. Bath should be taken early in the morning, for it is then that the system possesses the power of reaction to the highest degree—No man or woman should take a bath at the close of the day, unless by the advice of a physician. Many a man, in attempting to cheat his physician out of a fee, has cheated himself out of his birthday; ay, it is done every day. As soon as you get out of bed in the morning, wash your face, neck, hands and breast; then in the same basin of water, put your feet at once for about a minute, rubbing them briskly all the time, then with a towel, which has been dampened by wiping the face, feet etc., wipe the whole body well, fast and hard, mouth shut, breast projecting. Let the whole thing be done within five minutes."

MUSICAL BED—"The last novelty from Germany is a musical bed, which receives the weary body and immediately laps it in Elysium. It is the invention of a mechanic in Bohemia, and is so constructed that by means of hidden mechanism a pressure upon the bed causes a soft and gentle air of Auber to be played, which continues long enough to lull the most wakeful to sleep. At the head is a clock, the hand of which being placed at the hour the sleeper wishes to arise, when the time arrives, the bed plays a march of Spontini, with drums and Symbals, and, in short, with noise enough to arouse the seven sleepers."

DESTRUCTIVE FIRE—"A destructive fire took place in Greencastle on Tuesday. Some ladies first gave the alarm of fire; much confusion and difficulty followed to ascertain its precise locality. The building was at length discovered from smoke was issuing and the smell of fire was also perceptible. Still the burning spot remained concealed, amid the greatest consternation prevailed among the ladies. At length, as the smoke increased, and was just ready to burst to a flame, the smoke was ascertained to be issuing from beneath the enormous skirts of one of the ladies who had been first to give the alarm of fire! (The fire had taken hold of the cotton padding of an enormous under-skirt and had well nigh consumed it; yet, from the enormous size of the hoops by which it was distended, the lady was unharmed and even unwarmed. A few buckets of water put an end to the fire and the only loss was the garment, not the least damage having been sustained by the person of the lady." (1858)

FUNERAL SUNDAY

Funeral services for Gilbert Dreher of Reelsville, who died Thursday, will be held Sunday afternoon at 2 o'clock, CST, from the Walnut Chapel church. Burial will be in the Cloverdale cemetery.

State Acts To  
Aid Fair Traffic

To relieve the traffic congestion on Northside Indianapolis streets and provide more room for Indiana State Fair visitors, the Indiana State Fair Board obtained by lease 24 acres of ground north of the Fairgrounds for parking automobiles.

The lot is 4 blocks north of the 42nd street entrance of the Fairgrounds and free bus shuttle service will deliver patrons from the parking area to the gates of the Indiana State Fair. The parking area will be manned by the State Fairgrounds parking police supervised by the Indiana State Police.

Michael Meyers, Jr., of Elwood, Indiana State Fair Board member in charge of parking and police stated "We will not have to close the gates to the public again as we have had to do in the past."

"We anticipate being able to park between 20,000 and 25,000 automobiles a day," Carl Tyner, secretary-manager stated.

The 24 acres of grounds, the only available land near the Indiana State Fairgrounds, was leased for three months with option to purchase at the end of that time.

Indianapolis traffic policemen will assist the Indiana State Fair Board in handling the traffic for the fair which will be held September 1 through 9.

Four In Young  
Democrat Race

INDIANAPOLIS, July 23—(INS)—Irvin Venzke, of Hammond, appeared today to take the lead in the contest for president of the Indiana Young Democrats meeting in state convention in Indianapolis.

The three other contestants are Curtis Kimmel, of Vincennes, Richard McKay, of Fort Wayne, and Charles Robertson, of Indianapolis.

Resolutions considered by the convention today would denounce the Dixiecrats, lower the age limit for Indiana Young Democrats from 40 to 35, urge greater recognition of Young Democrats in state and national party affairs and endorse the Brannan Agricultural plan.

PETRILLO BANS PLAYING

NEW YORK, July 23—(INS)—President James C. Petrillo of the American Federation of Musicians, said in New York that he has called out members of his union playing in Chicago hotels, cafes and theaters served by the Boone Electrical Company.

The Boone firm is a franchise holder of the Muzak Corporation of New York, which supplies "canned music" for the entertainment places.

Petrillo denied a report that he has threatened to withdraw all his members from major hotels in 54 cities.

Man Killed In  
Two-Car Crash

TERRE HAUTE, Ind., July 23—(INS)—Charles E. Vowell, 31, of near Shelburn, was killed in a head-on collision early today between his car and one driven by H. Thomas Jones, of Detroit, Mich., six miles south of Terre Haute on U. S. 41.

Jones, his wife, Colver, 39, and their two children, Charles, 4, and Ronald, 13, were taken to St. Anthony's hospital at Terre Haute. None is believed seriously hurt.

Police Arrest  
Gang Suspects

LOS ANGELES, July 23—(INS)—A Hollywood publisher, two ex-convicts and one other man were caught today in a statewide police net thrown out for possible "trigger men" in the attempted rub-out of Los Angeles gang boss Mickey Cohen.

Held in Los Angeles was Tony Brancato. Held in San Francisco en route to Los Angeles were Jimmie Tarantino, publisher of "Hollywood Life" a nightclub gossip weekly, Joe Tenner, an ex-convict and Hy Porter, an associate of Tarantino.

GREENCASTLE  
LIONS READY  
TO SPRAY CITY

SECOND ANNUAL DDT CAMPAIGN PLANNED ON JULY 31ST

Sunday, July 31st, has been set by the Greencastle Lions Club as the day for the club's second annual spraying of the city and environs to control insect spread, especially flies. Club members will be assisted during the day by city employees and interested citizens.

The day will begin with a breakfast at the Kopper Kettle Grill at 4:00 A. M. and spraying will get underway at 5:00 A. M. Robe Ann park will be sprayed first to make way for nature lovers.

Five hundred pounds of wettable DDT have been ordered. A forty pound DDT to 100 gallons of water solution will be used for blanket spraying. Chlor-dane 2% DDT solution will be used to spray privies and small open ditches. A total of 1275 gallons of DDT solution will be used. The solution to be used for blanket spraying, because of its water base, is not harmful to vegetation. As a precaution however, citizens are urged to cover fish ponds and bird baths. Vicious dogs should be kept tied to facilitate the spraying.

Orchard type sprayers will be used to a great extent and the downtown area will receive a more thorough dosing than last year.

Plans this year have been laid according to recommendations of the Purdue Entomology Department and a result of a survey of this city made by Professor Osman of this same department.

Professor Osman's survey was made late in June at the Lions Club's request.

According to Kenneth Harris, County Agent, the fly family this year numbers three to four times normal, perhaps accounting for the many cases of polo this year.

Although it is difficult to admit, bad housekeeping is the cause of insect spread. Families are urged to practice insect control in and about the home. Tin cans should be rinsed of food particles before placing in receptacles; garbage cans should be rinsed after being emptied and garbage never left in the open; waste should be burned immediately. Without cooperation in the homes the spraying project of the Lions will be of no avail.

Professor Osman is making his survey stated that city garbage collection is inadequate.

In conjunction with active spraying the Lions Club has arranged to furnish information regarding insect control to individuals, groups or organizations upon request.

ELDERLY MAN STUNG  
BY BEES SUCCUMBS

KENDALLVILLE, Ind., July 23—An elderly beekeeper who was stung by hundreds of bees which swarmed on him after he had accidentally crushed their hive died Friday.

Charles W. Kewitz, 87, years old, suffered a heart attack Thursday while tending the bees at his Adams Lake home. Conscious but unable to move, Kewitz lay helpless for 45 minutes while bees from the hive he had upset stung him over his body.

Neighbors with netting and smoke pots finally rescued him.

TRAFFIC MISCAP

The state police post at Putnamville reported that an automobile ran into the rear of a semi-trailer truck on the National Road early Saturday morning a mile east of Putnamville. No one was injured, it was said.

JUDGE ORDERS PASTOR'S  
LOUDSPEAKER SILENCED

PORTSMOUTH, O., July 23—Rev. Marion Stillner will have to preach to his flock without the aid of a loudspeaker. Judge Fred W. Everett ordered the loudspeaker silenced yesterday after Milo Mullins, who lives near the Church of the Lord Jesus Christ, complained that the minister's voice was "noisy and discomforting."

PLANS UNDERWAY FOR  
WOMEN'S DIVISION AT FAIR

Mrs. Ira Hutcherson, superintendent of the Women's Division of Domestic Arts and Mrs. Allison Bridges, co-superintendent, met Tuesday afternoon in the home demonstration agent's office with superintendents of the different departments. The purpose of this meeting was to get instructions and be sure each department was being taken care of.

Mrs. Hutcherson stated that this was an open class anyone could have an exhibit. She also urged everyone to make an exhibit, so as to make this department a success.

The superintendents and their departments are: Mrs. Olin Leonard, Russellville and Mrs. Vera W. Hopper, Roachdale, baking; Mrs. Russell Houston, Cloverdale, clothing; Mrs. Mabel Mitchell, Putnamville, canning; Mrs. Joe Wright, Greencastle R. 4, art and home furnishings; Mrs. John Danberry, Greencastle R. R., handicraft and needlework.

Mrs. Hutcherson and Mrs. Bridges with the other department superintendents, will meet August 1st at school building for further arrangements.

Grain Storage  
Space Needed

WASHINGTON, July 23—The Agriculture Department announced plans today for a rush program to double government-owned grain storage facilities in the corn belt.

The department called for bids from private firms for construction of 50,000,000 bushels of additional government storage in nine midwestern states.

It said this was needed to help hold the "large quantities" of 1948-corn crop and other grain which farmers are expected to dump in the government's lap under price support programs this summer and fall.

The government now owns 45,000,000 bushels of storage in the form of metal bins scattered thru four midwestern states.

"Most of the new storage will be placed in the states of Illinois, Iowa, Indiana, Minnesota, Missouri, Nebraska, Ohio, South Dakota and Wisconsin," the announcement said.

Sunday Big Day  
For Sports Fans

Deem Bros. semi-pro baseball team which has been doing all right on the diamond this summer, takes on the strong Plainfield club at Robe-Ann Park Sunday afternoon at 1:30.

Boo Haverly will be on the mound for the locals. Haverly, turned in a splendid job of twirling last Sunday when he stopped the classy Saline City aggregation with six hits and one run. Greencastle won the game, 2 to 1, in 12 innings.

Doc Taylor, as usual, will do the catching chores for Deem Bros.

Immediately after the hard ball contest, the American Legion softball tourney will get underway at the city park, giving fans a full afternoon and evening of sports entertainment. Post teams from Wingate, Lebanon and Terre Haute are entered in the tournament along with local Legion outfit.

Finley Jobe, who lost a tough 8-inning battle to the Chesley team from Terre Haute Thursday night, will do the pitching for Post 58.

The two afternoon winners will meet for the district championship at 9 o'clock Sunday night. A curtain raiser will be staged at 7:15 p. m. between two of the city's Fast League clubs.

BATTLE LOOMS  
BETWEEN TWO  
SENATE GROUPS

POWERFUL COMMITTEES IN DISPUTE OVER ARMS PROGRAM

WASHINGTON, July 23—(INS)—Two powerful Senate committees drew battle lines today over which will handle President Truman's European Arms program.

The dispute is between the armed services committee headed by Sen. Tydings, D., Md., and the tradition-bound foreign relations committee under Sen. Connally, D., Tex.

Armed services committee Senators said they will make a floor fight for the right to conduct hearings on the proposed one billion, 450 million dollar rearmament program.

Sen. Knowland, R., declared that the diversion of surplus and reserve weapons to arm other countries strikes directly at the "nation's defense" and is properly a matter for the Tydings group.

## DIARY GUARDED

WASHINGTON, July 23—(INS)—A closely guarded diary containing "lots of names" is the key attraction today in a Senate probe of Washington's "fence percent" influence sellers.

The document's author, James V. Hunt, is reported to be "resting under a doctor's care" at his home. Hunt has been ill ever since a Senate investigating subcommittee under Sen. Hoyer D. N. C., launched the "wave percenters" inquiry.

Propose Limit  
On School Aid

WASHINGTON, July 23—(INS)—The chairman of the House Education and Labor Committee recommended today a one-year limit on the proposed 300 million dollar grant to states for school aid.

Rep. Lesinski, D., Mich., made this proposal as a substitute for a Senate bill now pending in his committee which provides for a continuing federal assistance program.

Lesinski said he will urge his group to hold the grant to one year "so that a detailed study can be made next year of the need for permanent legislation."

Meanwhile, no settlement appeared in sight of the religious controversy centering around the Barden bill, a revised version of the Senate measure approved by a House Education Committee. The Barden bill bans use of federal funds by the states for textbooks and bus transportation for pupils of all schools. The dispute is over whether these services shall be made available to parochial and private as well as public schools.

## Fishing Should Be OK This Weekend

INDIANAPOLIS, July 23—(INS)—There should be a lot of good fishing this week-end.

That's the word from the state conservation department.

Heads of the Conservation Department and the U. S. Weather Bureau in Indianapolis got together and decided that since barometric pressure will be rising and showers should end by today the state's streams and lakes should be "ripe" for good catches.

A high temperature of 88 is forecast for Sunday afternoon with much less humidity than experienced the last week.

Early reports, however, from conservation officers say most streams and rivers are very muddy with catches running from poor to fair during the middle of the week.

## Purdue Arranges Ag. Conference

LAFAYETTE, Ind., July 23—(INS)—A "Better Pasture" program will be a feature of the summer agricultural conference of Purdue University Aug. 2 to 4.

Discussions on the problems of pasture for the various classes of stock will be given by the following Purdue staff members: G. O. Mott, pasture specialist; C. M. Vestal, in charge of the swine experimental farm, and N. S. Lundquist, of the dairy research staff.

There also will be discussions of feeding, drying and storing of crops and new crops varieties.

A cast of 100 home economics club members of Vanderburgh county will bring an old-fashioned family album to life at the Indiana Home Economics Association meeting during the conference.

As the pages of the old album are turned, a Vanderburgh county family of the days from 1910 to 1920 will be presented. Mrs. William Henn is the author of the script and Mrs. Russell Leonard, county vice-president, will direct the playlet.

Miss Janet Armstrong, home demonstration agent, will be narrator. Included in the entertainment will be "Folly" girls, the Merry Widow Waltz, a double barber shop quartet and east side dances. Solo numbers will be sung by Mrs. Ruben Waitman.

Mrs. Ray Lambert, of Gaston, will preside at the annual business meeting of the association.

## VAUGHAN ADDS A 'DECORATION'

OPERATION UNION STATION  
JULY 6, 1949  
MAJ. GEN. HARRY H. VAUGHAN, USA  
from PRESIDENT HARRY S. TRUMAN

**BRAND NEW MEDAL**—which he is unlikely to display with his other decorations on his chest—is added to the collection of President Truman's military aide, Maj. Gen. Harry S. Vaughan. The president himself presented the medal "Operation Union Station" to Vaughan "in recognition of your courage and intrepidity over and beyond the call of duty" to commemorate the aide's brush with newsmen at the Washington railroad station recently. Reporters had asked him who had paid the expenses of the vacation trip from which he was returning. (International Soundphoto)

## 22 INJURED IN EXPLOSION AT BALTIMORE

TWENTY-TWO PERSONS are injured, five seriously, when a still blows up at the Standard Oil Co. plant in the eastern section of Baltimore, Md. Photo shows smoke and flames leaping into the sky. The blast was felt throughout the city and the fire raged for more than an hour. (International Soundphoto)

## HOMES BURNED IN FLORIDA RACIAL VIOLENCE

FLAMES LIGHT THE NIGHT at Groveland, Fla., with three homes of Negroes burned to the ground in violence over an attack on a white woman by three Negro men. Three hundred Florida National Guardsmen are patrolling the area to prevent further violence. (International Soundphoto)

**When the Ounce of Prevention Fails**

★ Warning against accidents in the home and on the highways is old stuff to most of us. Many industries have made real progress in accident prevention, but our homes continue to produce minor and major injuries on an ever-increasing scale.

In spite of every precaution, accidents will occur. When the "ounce of prevention" fails, it is wise to have "the pound of cure" ready and at hand. See that your medicine cabinet is amply stocked with standard first-aid materials. Keep a first-aid kit in the pocket of your car. We shall be pleased to help you select the essential items from our complete stock.

## NEWS in the WORLD RELIGION

The Methodist Committee for Overseas Relief (Bishop Titus Lowe, chairman) is urging that each of Methodism's 572 superintendents' districts undertake to give a formal "assurance" that it will resettle a displaced person's family from Europe somewhere within its borders. The "assurance" guarantees that the DP family will have a job, a home, that transportation from the port of entry to the new home will be paid, and that it will not become a public charge. The Committee is hoping, under the government regulations, to be able to bring 2,000 persons to America before the end of 1949, and these "assurances" of work and care by church groups are necessary to their resettlement. In 1950 it is hoped to resettle in America, under Methodist Church auspices, an even larger number of DP families.

Under the leadership of the Rev. William Dye, principal of the Union Theological Seminary, Bareilly, United Provinces, India, and the Rev. A. Ralla Ram, of the U.P. Christian Council, a committee has in preparation a new hymnal which will bear the imprint of the United Provinces Christian Council. Not only will it contain translations of hymns from English and other languages (as do most Indian hymnals now), but it will also have a number of original Indian hymn-poems and hymn-tunes, together with a large section of native Ghazals and Bhajans which are peculiar to the worship of Indian Christians. The new hymnal will be used by all the cooperating Protestant churches which compose the provincial Council of Churches.

The Rev. John Alexander Clarke, who translated the New Testament into Kikuba, of the Belgian Congo languages, twenty-five years ago, and who last year completed the translation of the Old Testament into the same tongue, is celebrating his golden jubilee as a missionary on furlough in Australia. In the spring of 1899, Dr. Clarke landed from Australia in Benguela, Angola, and then started on foot along the trail into Katanga (then called Garanganze) which was blazed by the pioneer Arnot. Through the half century he has been a member of the Garanganze Evangelical Mission as evangelist, teacher, and Bible translator.

Champion McD. Davis president of the Atlantic Coast Line Railroad, is an active member of the Protestant Episcopal Church, and active in its missionary organizations. Recently when he heard that there were churches of his faith in Liberia, Africa, that were eager to have bells to summon their clock-less members to services, he sent overseas two locomotive bells that had been "retired" by his railroad. Now they will be active in their new posts for many years to come.

From fourteen different nations fifty young people met recently on the campus of DePauw University, Greencastle, Ind., to discuss their experiences as foreign students in the United States during the past two years, and to counsel regarding the schooling and housing of the 300 or 400 more who will be arriving during the next three or four years for similar graduate studies. Those young people, men and women—many of whom, on both sides of World War II, knew the hardships and tragedies of military life, prison and concentration camps, and near-starvation—have been given educational training as "crusade scholars" of the Methodist Church. The Church has already expended more than \$1,000,000 in bringing 300 young people from the fields in which it carries on missionary work to America under funds of its crusade for Christ movement, and will provide another \$1,000,000 in its current movement. The advance for Christ and his church. Not all the "crusade scholars" are Methodists, but all are Christian workers and recommended by Methodist leaders overseas. Most of them are taking post-graduate studies in 40 schools in theology, or in education, but there were half a dozen doctors in the group in Greencastle, a dentist, some

agricultural specialists, several engineers, an atomic physicist, a chemical expert, and a journalist. They came from the Philippine Islands, Okinawa, Japan, Korea, China, the Malay Peninsula, India, Norway, Sweden, Poland, Brazil, Argentina.

The Baptist Missionary Society (British), the American Baptist Foreign Mission Society, and the Swedish Mission forbundet are planning the erection of a first-class medical training center near Kimpese, in the Belgian Congo, Africa. So interested in the project are the Belgian Government and a Belgian philanthropic foundation that they expect to contribute half a million dollars as capital expenditure for this center which promises to be the largest best-equipped in the Congo. The Protestant mission boards expect to add \$115,000 to this amount.

## CIVIL WAR PLAYING CARDS

## GIVEN TO UNIVERSITY

ATLANTA (UP)—Confederate soldiers of 85 years ago, like those of today, needed a pack of cards to pass the time, and perhaps change ownership of Confederate money.

Emory University has been presented with a pack of the cards they used, made by hand because imports from Great Britain had been cut off.

The deck was designed by John Bell Hewitt, who was a friend of Edgar Allan Poe. It was presented to Emory by Mrs.

Clementine Hewitt leBey, Savannah, Ga.

They are cut out of ordinary cardboard, and the designs are hand painted in water colors.

The queen of hearts wears a hooped skirt and the king of spades is a man in boots, carrying a spade. The king of clubs is an Irishman brandishing a shillelagh.

The ancient Egyptians were fond of music, using such instruments as harps, lyres, guitars, double and single pipes, and flutes.

The ancient Inca empire at the height of its power comprised 10,000,000 people living almost exclusively in mountain ranges whose equivalent length would stretch from Alaska to Mexico in a belt as wide as the state of California.

A 20-pound electric ray stores enough voltage to knock a man flat on his face. The electric ray, one of the few salt water fish capable of discharging electrical energy, stores 250 volts in its wing tips, which are used for stunning its opponents and prey.

## Looking at Life

ERICH BRANDEIS

Well, as I told you yesterday, we were knee-deep in maps and folders trying to figure out where to go on our trip.

The sun was shining and it was not too warm, so we both felt quite spry.

California—that's where we would go.

But not the short way, via the Santa Fe Trail or the Lincoln Highway.

No, we had done that before, and in summer it would be hard to get accommodations.

We'd go the long way—through Canada, via Banff and Lake Louise, to Vancouver, down to Seattle, Portland, San Francisco, our old home, and eventually to Los Angeles, where we could figure out how we'd go back.

We thought we might return via Texas, the Gulf Coast, New Orleans, etc., etc.

But all this was before I had started to figure the cost of this wonderful trip that looked so enticing and so colorful on the maps.

It also was before the mailman came.

But then the mailman did come.

There was the usual lot of stuff, and there was also a pretty chartreuse-colored envelope with a white border, addressed to "Mr. and Mrs. Erich Brandeis."

It was obviously an invitation, although we did not know anybody in the Massachusetts city from which it came.

So, still full of our anticipated seven or eight-thousand mile trip, I opened the envelope.

A neat little folder was inside.

On the front page only "You are invited."

I opened it.

Page Two was a road map with an arrow pointing to the place described on Page Three.

Page Three was headed by a fancy-sounding name which I will not mention here.

Then the subtitle, "A Nursing Home for the Frankly Fastidious," printed in heaven-blue ink.

The text, following, was in soft-brown:

"Softly played music is wired to cheerful private rooms which are equipped with telephone and signal system.

"There are facilities for physiotherapy with registered nurses constantly on duty to give individual attention.

"Special diets come temptingly served from a bright modern kitchen.

"Rates are commensurate with the high standards of care."

The rates were printed on Page Four—nothing but the rates: Single Room, \$25.00 per day, Double room, \$38.00 per day per person.

I passed the folder over to my wife.

She didn't say anything.

Neither did I.

P. S. We think we'll only go as far as Minnesota on our trip. Nursing homes are expensive.

Tennessee has had two official state flowers. The legislature adopted the iris in 1933, but from 1919 to 1933 the passion flower, selected by vote of school children, was the state flower.

Oregon's first telegraph company started operation in 1855.

Milk makes up more than 25 per cent of the total foods consumed annually by the average American.

The port of Albany, N. Y. has the largest single-unit grain elevator in the world. It has a capacity of 13,500,000 bushels.

## WILL ATTEMPT SETTLEMENT OF HAWAIIAN STRIKE

BLAISDELL...says chances good.

BRIDGES... "a little skeptical."

JAMES P. BLAISDELL, management spokesman in the 80-day Hawaiian longshoremen's strike, speaking before the Senate labor committee, agrees to begin negotiations leading to compromise on hourly wage increase asked by the Longshoremen's union. He says chances are good for settlement. Harry Bridges, president of CIO Longshoremen's union, agreeing to negotiate, is "hopeful" but "a little skeptical," although stating, "I think we're gonna win the strike." (International)

## SIX KILLED, 36 INJURED IS SEATTLE PLANE CRASH TOLL

TWO VIEWS of wreckage of the C-46 airliner which crashed taking off at Seattle, Wash., show where it plunged through seven houses, setting them afire and leaving a toll of six killed and 36 injured, seven of the injured being residents of the damaged dwellings. The plane carried 28 passengers and crew of four. The crash sheared off the tail, thus affording an escape hatch. (International Soundphotos)
